

## Unity Projects

The diagram illustrates the structure of a Unity project. It features a large light blue rectangle with a dashed border, representing the project container. Inside this container, at the top, is the text 'Unity Projects'. Below this text is a smaller, solid light blue rectangle with a thick black border, representing the project's internal structure. Inside this inner rectangle, on the left, is a small blue rectangle with a black border containing the text 'Assets'. To the right of the 'Assets' rectangle, within the same inner container, is the text 'UnityEditorAI'.
